(b) whether the scheme has been launched in every State; and

(c) if so, since when and the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF RURAL DEVELOPMENT (SHRI SUB-HASH MAHARIA): (a) Yes, Sir.

(b) and (c) No, Sir. Reforms have been introduced in the Rural Water Supply sector during the year 1999, with a view to institutionalise community participation in the Rural Water Supply activities in order to ensure sustainability of the systems and sources used for providing drinking water supply in the rural habitations. 63 districts in 26 States have been identified by the State Governments for implementation of the Sector Reform projects on a pilot basis. These are process projects with more emphasis on community development. Under these projects, the community is envisaged to actively, participate in planning, sanctioning, partial funding, implementing, operating, maintaining (including repairing and replacing) and managing the water supply schemes of their own choice. As such, more thrust is on awareness creation and capacity building of the community so as to equip them to shoulder the above responsibilities. These projects are at this stage provisionally estimated to cost approximately Rs. 1900crore.

Proposals for dissemination of information and transfer of technology to rural households

3157. SHRI DINA NATH MISHRA: Will the Minister of RURAL DEVELOPMENT be pleased to state:

(a) the details of the fifteen rural building centres sanctioned by Government and their functions;

(b) what are the plans of Government for the dissemination of information and transfer of technology to rural households; and

(c) the details of the NGO's involved in the same?

THE MINISTER OF STATE IN THE MINISTRY OF RURAL DEVELOPMENT (SHRI SUBHASH MAHARIA): (a) to (c) Ministry of Rural Development has launched a Scheme w.e.f. 1.4.1999 facilitating the setting up of a network of Rural Building Centre (RBCs) through the length and breadth of the rural areas. The primary objectives of the setting up of Rural Building Centres are as follows:—

(i) Technology transfer and information dissemination.

(u) Skill up-gradation through training.

(iii) Production of cost-effective and environment-friendly building material components/materials.

So far 55 Rural Building Centres have been sanctioned since inception of the Scheme out of which 28 have been sanctioned to Non-Governmental Organizations (NGOs). List of approved Rural Building Centres is given in the Statement.

Identification of habitations affected by water quality problems

3158. SHRIMATI VANGA GEETHA: Will the Minister of RURAL DEVELOPMENT be pleased to state:

(a) whether any survey has been made to identify the habitations affected by water quality problems;

(b) if so, the details thereof; and

(c) the strategies evolved to ensure that these habitations have access to genuine potable water?

THE MINISTER OF STATE IN THE MINISTRY OF RURAL DEVELOPMENT (SHRI SUBHASH MAHARIA): (a) and (b) Yes, Sir. Water quality survey was made initially during 1991—94. The same was reviewed and revised by the States during 1998-99. Accordingly, as on 1.4.1999 the total number of water quality affected habitations stood at 217211. Details of water quality affected habitations State-wise and quality-wise is given in the Statement *(see* below).
